Case matching type

- Case Sensitive
- Case Insensitive (recommended)

You can enable case sensitive or insensitive matching for the profanity words specified above.

Strict filtering

- On
- Off

If strict filtering is ON, even parts of words are matched. e.g. "crap" matches "crappy deal" or "scrap" too. If OFF, it will only match full words, e.g. "crap" matches "Oh! crap" but not with "crappy deal" or "scrap".

Filter Character

(\*) Asterisk ▼

It is used as the replacement character for the parts of matched profanity words.

Word Rendering

- First character retained [e.g. hello becomes h\*\*\*\*]
- First and last character retained [e.g. hello becomes h\*\*\*o]
- Last character retained [e.g. hello becomes \*\*\*\*o]
- Replace whole word [e.g. hello becomes \*\*\*\*\*]

It allows you control how the matched profanity words will be replaced.
